## FIELD ROLLERS.

A valuable Machine for crushing sods and lumps remaining after the harrow has passed, pressing down stones and rendering the field smooth for the mowing machine, etc. By pressing the earth close about the seed, a more sure and quick germination is effected. This Iron Roller is the most approved kind, as it clears better and is more durable than the Wooden Roller. The stone box is convenient for taking off loose stones. By rolling early in the Spring, the heaving effect of frost is repressed. Made with Shafts instead of Pole, if so ordered.

3 Sec., 12 in. face, by 20 in. dia.,	550 lbs.,	\$40 00	4 Sec., 12 in. face, by 28 in. dia.,	950 lbs.,	\$62 50
